**WHY HMO'S ARE A TERRIBLE IDEA AND
WHY WE DON'T JOIN WITH A FEW INSURANCE CARRIERS**

Everyone likes to save money. Value is different than cheapest, though. HMO's or super discounted plans make control of money a much higher priority than your health and well-being. Don't you think this is dangerous? Cheap isn't always good.

HMO's make dental offices use certain materials, certain labs, and actually have restrictions on what options you, as the patient, can be told about.

We also do not participate with insurance companies that do not return our calls or letters. We don't participate with carriers that do not have accepted practices of established dentistry.
